Mention your most significant contribution as a teacher (in about 100 words):

Through teaching and writing develop self thinking attitude among students and public to know the truth and false on everything through the original books or original source in respective field, theme. Present educational system and prescribed particular book of particular author make students parrot and monkeys to blindly repeat and follow the ready made sayings and deeds done by others without using even common sense and without bothering to know the truth facts and events. For example aryan and dravidans are not any race as taught in history books. Tamil literatures say that aryan is linguistic identification. Aryam is original and the ancient name of Sanskrit. Aryam and tamil were known as northern and southern language respectively since only these two languages were in india and in entire world. Iran Iraq kuwait peru are pure tamil words. Aryans and tamils were in all over the world. Aryan and tamilan are referred as names of Shiva the origin less omnipresent god of entire india from himayala to tamilnadu. Dravidian is total imagination & war between aryan and so imagined dravidians was poisonous imagination of british to divide north and south.

Innovation/ Contribution in Teaching:

a. Teaching Method:

Asking questions and let the students to use their brain and self thinking on every theme. Making them aware of to consult original primary internal sources on all fields.

b) Evaluation Method:

Marks given for points themes relating to subjects paragraph and quotations where ever needed.

c) Preparation of Resource Material:

prepared from mainly primary works original writers internal evidences, then secondary and others. Internal evidences are main source for preparation.

d) Remedial Teaching/ Student Counselling:

Now and then meet students to clear doubts, suggestions for how to get easy remembering prepare good and easy way for exams etc.

Mention your vision for the college for the next five years taking into consideration both academic and administrative aspects (in about 100 words):

Cultural activities and seminars on great ancient persons can be performed every session to promote the valuable wisdom and tradition of the country.

To make the students good citizen and good human moral cultural spiritual classical works must be included in syllabus. Because of the omission of these literatures in the present educational syllabus not only the values and glorious culture of the country are vanishing but all sorts of evils are increasing in the society. Because of the syllabus in very corrupt language and on bad theme like modern novel short stories drama etc the language and behavior become corrupt and students are not good even in their own mother tongue. To keep up the standard of the language culture and civilization the books written in corrupt language and encouraging bad habits should be deleted from syllabus.
